Mr. Geo. E. Pritchett arrived from Georgia last Friday and is here to look after moving his furniture to Georgia and dispose of some real estate holdings.

### To Build a New City Dock

There was a special meeting of the town council on Wednesday evening when the city dock question was taken up as special business.

Marshal Waller reported that he had secured about \$800 on private subscription toward building a new dock. The council decided that the balance of the money needed could be secured and Councilman P. J. Hall was empowered to proceed with the building of the dock.

It was the sense of the council, the mayor consenting also, that the merchants be allowed to open their stores for Sunday next, the 25th inst., on account of the immense crowd that will be here on that day attending the colored campmeeting.

### How to Protect the Fish

SHILOH, FLA., Oct. 15th, 1908.

Editor of THE FLORIDA STAR

Will you kindly give one who is in the fish business a small space to answer the Times-Union in regard to violations of the present fish laws?

I think in one instance an injustice is done the sheriff of Brevard county. He would enforce the law if he could collect fines.

I would suggest that all illegal nets be destroyed and boats seized and sold. That would stop illegal fishing. Mullet are now caught that have never spawned. Give them a chance one season at least; also make the time from 15th November to 31st December a close season in fact, not in name only.

I am satisfied that more mullet are destroyed from Oak Hill canal to New Smyrna inlet during said close season than is done by legal gill netting during the balance of the year.

I would say stop all kinds of fishing except with lines. I would also suggest a license tax of at least \$50 on all fishermen not actual residents of the county in which the fishing is done.

Now, Mr. Editor, when the fish laws are taken out of politics then we may look for an honest law.

Hope you will not throw this in the waste basket.

JOHN D. VANN.

In addition to the above we find the following on this subject in the last general presentment of the grand jury of St. Lucie county:

"The indiscriminate use of the seine as it is now employed results not only in destruction of small fish under marketable size and fish out of season, but in the destruction of their food supply and spawning beds as well. It is the opinion of those engaged in the fish industry that the use of the gill net is adequate for the catch of sufficient fish to supply the market demand, and we earnestly recommend that our honorable senator and representatives use all honorable means to secure the passage of a law prohibiting the use of a seine, with a severe penalty attached for the violation of the same. This is a question that should receive the most serious attention of the legislature when it convenes in April. Are our food fishes to be allowed to be depleted? Are non-residents to be allowed to come to Florida every year, catch and ship thousands of barrels of fish and ruin this industry in the state?"

Have you tried Sunday dinners at the Palmhurst?

### X-Rays Decides a Suit at Law

Mr. Geo. M. Robbins returned from Miami Tuesday. The case of Olivia Albury vs. F. E. C. R'y Co., in which Messrs. Robbins and Worley defended the railroad, was decided in their favor. The suit was for damages on account of alleged injury to plaintiff's foot in getting off a train. The X-rays system was introduced and showed that her foot had always been deformed, hence the case fell through.

If you need eye treatment, spectacles or eye glasses see Dr. Armstrong, 9 Laura street, Jacksonville. He also straightens cross eyes without knife.

## ITEMS OF NEWS IN FAIR FLORIDA

### What is Being Done Towards the Development of the Peninsula

Remember The Alpine for lodging and quick lunch when in Titusville.

Mrs. C. B. Kingman has returned from a short visit with friends in Lakeland.

For the best shoes made get the Edwin Clapp and Crossett makes. Winston S. Branning, sole agent.

We should not be surprised a bit if another prominent citizen of our town should take unto himself a wife aside from Editor Walton, as we are informed that said p. c. is already engaged.

Sterling cottage, which has been leased by Mr. Johnson, has just been connected with the Palmhurst by a porch, bringing the two into one management and practically one hotel.

The colored campmeeting is now in session at this place, but will not hold as long as on former occasions, coming to a close on Sunday next, which day promises to witness as large an attendance as the closing Sunday on previous occasions.

Mr. and Mrs. Julius Kline and daughter, Miss Leona, returned from New York last Friday. Evidently their stay in that city has given them robust health. Mr. Kline has just added some handsome furnishings to his store and is displaying the largest and finest stock of goods ever brought to this place.

Eat a few meals at the Palmhurst and be happy.

### Sheriff Pulls a Blind Tiger

Sheriff Brown located a blind tiger at Rockledge the first of the week and arrested Joe Dassey, colored, for selling liquor in a dry county. This is a circuit court case and will come up for trial next week.

Sheriff Brown found a nice upright piano in Dassey's possession which he claims as his property and this may help him to pay up his fine.

### Pushing Repairs on the Hotel

The work of repairing and painting the hotel is being pushed as rapidly as possible. Contractor Hall has his carpenters at work renewing the porch floors, etc., the roof has been repaired by Giles & Johnson, and Wm. Maier has charge of the painting, which is a guarantee of its being well done. The trimmings of the gables have already improved the exterior appearance of the building greatly by the harmonious blending of colors.

Try the Palmhurst meals. They are up-to-date.

### Joe Fielding Writes from Virginia

Considerable speculation has been going about as to what has become of Prof. Joe Fielding, who went away several months ago with Geo. Wood, right after serving as "best man" at the latter's wedding. A letter from the professor in Hallwood, Va., states that he has defeated Kid Black in Chicago three rounds; stopped Paddy McGuigan in two rounds, although McGuigan gave him a great battle some 18 years ago; and wrestled a draw with Big Tom Caton, in Larksville, Penn., lasting two hours and twenty minutes in which Fielding's right arm was fractured—Eaton weighed 185 pounds. Fielding is now teaching the Physical Culture school in Hallwood.

Let your servants go to campmeeting Sunday and take dinner at the Palmhurst.
